In re: WJCS (FM) Bayboro, N.C.
Special Temporary Authorization
Expiration Date: 8/28/91

Dear Licensee:

This letter concerns the temporary authorization permitting FM Station WJCS to remain silent.

Pursuant to your request filed May 20, 1991, the Commission authorized WJCS (FM) to remain silent "due to the lack of qualified salespeople and the lack of supporting businesses." This authorization (copy attached) expired August 28, 1991, but we have no indication that WJCS resolved its problems and returned the station to on-air operations.

Accordingly, you are requested to notify this office about WJCS's current operational status. If the station resumed operations pursuant to Section 73.1740 of the Rules, please state the date such operations commenced. If the station remains silent, please file the appropriate request to extend the Commission's May 28, 1991 authority. In either case, your response is required within 15 days of the date of this letter.¹ Failure to respond to this letter may lead to further action on the Commission's part.

Sincerely,

Dennis Williams

Request for Special Temporary
Authority

Dear Licensee:

This letter concerns your request, filed May 20, 1991, for special temporary authority to permit FM Station WJCS to remain silent.

As your letter indicates, WJCS is silent "[d]ue to the lack of qualified salespeople and the lack of supporting businesses." Accordingly, special temporary authority is granted through August 28, 1991 to permit FM Station WJCS to remain silent. Please note that any prescribed tower lighting must be maintained during this period, and that no extension of this authority is contemplated absent detailed substantial progress towards resolution of the station's problems.

In the event WJCS is able to return to on-air operations prior to the expiration of this authority, please notify this office in writing of the particulars.

Dear *Alex Kusman*

Due to the lack of qualified salespeople and the lack of supporting businesses we felt there was no alternative but to go silent.

Although the troops are coming back and two surrounding military bases will soon again be lending their support to the community; we realize it will still be some time before other area businesses regain losses and loosens their advertising belts.

Hopefully, this will be temporary situation.

NOTICE TO ASSIGNEE:

Enclosed is FCC Form 732 notifying you of Commission consent to the assignment of the construction permit and/or license of the station(s) therein described. Voluntary assignments are required to be completed within sixty (60) days of the date granted.

In addition to the filing the below mentioned FCC Form 323, you are required to immediately notify this office (8700), by letter, as to the exact date of the consummation; that is, the date on which the acts necessary to effect the assignment was completed.

Within thirty (30) days after the consummation of the transfer it will be necessary for you to submit an Ownership Report (FCC Form 323) reporting all changes as required by Section 1.615 of the Rules. Where applicable, a separate Ownership Report should also be completed and submitted for any holding company (25% or greater ownership interest) of the licensee/permittee. Contractual information required by Section 1.613 should be reported for the assignee in Item 6, page one of the Ownership Report and copies of each instrument should be submitted with the report. If this is an involuntary assignment that was a result of a death or court action, an Ownership Report must be filed to determine that all requirements of the Rules have been met and reported.

In the event the assignee is the licensee/permittee of another station and has a current Ownership Report on file, you may complete and file only page one of FCC Form 323 to reflect the acquisition of the station(s) listed above. FCC Form 323 is enclosed for the convenience in filing. Instructions for completing the report are on the reverse side.

It is of the utmost importance that all Commission correspondence comes to the immediate attention of the permittee or licensee. Only one mailing address can be maintained for each station. Unless we hear from you to the contrary, the above address will be used as your permanent mailing address.

If the assignor has any applications pending before the Commission, these applications must be amended to reflect the name of the assignee. Upon consummation of the assignment, amendments to each application must be filed by the assignee, in triplicate, signed by the proper party (see Section 1.513 of the Rules). Further processing of these applications will be withheld pending receipt of the amendment.

structure:

It is to be expressly understood that the issuance of these specifications is in no way to be considered as precluding additional or modified marking or lighting as may hereafter be required under the provisions of Section 303(q) of the Communications Act of 1934, as amended.

Paragraph 1.0, FCC Form 715 (March 1978):

Antenna structures shall be painted throughout their height with alternate bands of aviation surface orange and white, terminating with aviation surface orange bands at both top and bottom. The width of the bands shall be equal and approximately one-seventh the height of the structure, provided however, that the bands shall not be more than 100 feet nor less than 1 and 1/2 feet in width. All towers shall be cleaned and repainted as often as necessary to maintain good visibility.

Paragraph 3.0, FCC Form 715 (March 1978):

There shall be installed at the top of the structure one 300 m/m electric code beacon equipped with two 620- or 700-watt lamps (PS-40, Code Beacon type), both lamps to burn simultaneously, and equipped with aviation red color filters. Where a rod or other construction of not more than 20 feet in height and incapable of supporting this beacon is mounted on top of the structure and it is determined that this additional construction does not permit unobstructed visibility of the code beacon from aircraft at any normal angle of approach, there shall be installed two such beacons positioned so as to insure unobstructed visibility of at least one of the beacons from aircraft at any normal angle of approach. The beacons shall be equipped with a flashing mechanism producing not more than 40 flashes per minute nor less than 12 flashes per minute with a period of darkness equal to approximately one-half of the luminous period.

Paragraph 5.0, FCC Form 715 (March 1978):

At approximately two-fifths of the over-all height of the tower one similar flashing 300 m/m electric code beacon shall be installed in such position within the tower proper that the structural members will not impair the visibility of this beacon from aircraft at any normal angle of approach. In the event this beacon cannot be installed in a manner to insure unobstructed visibility of it from aircraft at any normal angle of approach, there shall be installed two such beacons. Each beacon shall be mounted on the outside of diagonally opposite corners or opposite sides of the tower at the prescribed height.

Paragraph 14.0, FCC Form 715 (March 1978):

On levels at approximately four-fifths, three-fifths and one-fifth of the over-all height of the tower, at least one 116- or 125-watt lamp (A21/TS) enclosed in an aviation red obstruction light globe shall be installed on each outside corner of the structure.

Paragraph 21.0, FCC Form 715 (March 1978):

All lighting shall burn continuously or shall be controlled by a light sensitive device adjusted so that the lights will be turned on at a north sky light intensity level of about 35 foot candles and turned off at a north sky light intensity level of about 58 foot candles.

Paragraph 22.0, FCC Form 715 (March 1978):

During construction of an antenna structure, for which obstruction lighting is required, at least two 116- or 125-watt lamps (A21/TS) enclosed in aviation red obstruction light globes, shall be installed at the uppermost point of the structure. In addition, as the height of the structure exceeds each level at which permanent obstruction lights will be required, two similar lights shall be displayed nightly from sunset to sunrise until the permanent obstruction lights have been installed and placed in operation, and shall be positioned so as to insure unobstructed visibility of at least one of the lights at any normal angle of approach. In lieu of the above temporary warning lights, the permanent obstruction lighting fixtures may be installed and operated at each required level as each such level is exceeded in height during construction.
